

LITIGATION IN BANKRUPTCY: How to Avoid It If You Can and Win It If You Can't

How do leading practitioners handle litigation issues that arise during a Chapter 11 case? How do they approach the pursuit of post-confirmation claims - often the sole source of recovery for unsecured creditors? How do bankruptcy judges view the merits of those strategies? This year's program will feature two panels of prominent bankruptcy practitioners and judges from across the country, who will share their experiences and strategies for resolving or litigating critical pre-confirmation issues and post-confirmation claims.
